

LOS PERROS PERDIDOS FOUNDATION

Overview

Los Perros Perdidos Foundation was started by Toree Warfield and Karin Jakobsmeier in mid-2022. Karin has been capturing and rescuing street dogs in Cancun for more than 10 years on her own, often rehabilitating animals at her home. Toree came to Cancun in March of 2022 with the idea of trying to help dogs there. The two women connected and began to devise a more far-reaching plan to help even more dogs.

- (1) Karin had been conducting spay/neuter clinics in various neighborhoods with good results. She promoted and managed these events herself. But often wished that she had a mobile van, able to travel about to the neighborhoods. And this idea has become one of our goals.
- (2) The second goal of our organization is to create a sanctuary for street dogs, where they can convalesce after being spayed/neutered; and where they can be treated for various ailments that are common to street animals.
- (3) Our third goal is to rehome these animals; including arranging transportation of rehabilitated and socialized dogs to the United States and Canada for adoption.

Spay and Neuter Program

Our spay and neuter clinics are priced for success in Mexico. Anyone can sign up to participate with their own pets. We also will capture and sterilize as many feral dogs as possible during our stay in each neighborhood.

Los Perros Perdidos Foundation will raise funds, apply for grants and host fundraisers to assist in the cost of spay/neuter surgeries. We appeal to the public to help in this mission. We will also be seeking out corporate sponsors, as well as volunteers to assist in these missions.

Multimedia and Outreach

It is our goal to bring more awareness of the situation in Mexico to the United States and seek out U.S. dollars to further our humanitarian mission. We create promotional videos which include actual footage from the streets of Cancun.

Los Perros Perdidos Foundation is active on social media to promote our programs and generate further interest. We partner with and support Paws in Action Cancun. We will seek to partner with and support other organizations operating in Mexico and the United States to broaden our reach.
